**TABLE VIII (APPENDIX),
LITERACY IN THE VERNACULARS.**

The figures for general literacy and literacy in English have been given in the prescribed form in Imperial Table VIII. The figures in this table show literacy in the Vernaculars and the arrangement of having sub-divisions of each Vernacular is peculiar to this Province. The sub-divisions under each Vernacular show the script employed by literates in that Vernacular. All the dialects used in the Province have been grouped into 3 main Vernaculars, namely Urdu, Hindi and Punjabi. The column 'Others' under Urdu and Hindi shows persons using some script other than that specified in the table. These scripts are given below.—

APPENDIX TO IMPERIAL TABLE IX.

EDUCATION BY CASTES, IN CERTAIN SECTS, FOR SELECTED DISTRICTS.

1. This table has been prepared according to Census Commissioner's instructions contained in his Nos. 1227 and 1255, dated the 25th August 1911, and 29th August 1911, respectively, and shows for certain districts, the castes of Aryas, Brahmos and the followers of Dev Dharm, together with the extent of literacy in each (*vide* para. 4, Title page of Imperial Table IX).

2. The districts selected are those where the followers of these sects are found in considerable strength

3. Only 40 Sikhs have returned themselves as Aryas and 22 as Brahmos in these districts. They have not, therefore, been included in the figures shown in this table.

4. Castes returning less than 10 persons have been grouped under "others."

5. Sub-castes returning not more than 10 persons have been grouped together under the head "Minor" with a footnote giving the detail of such sub-castes with the strength of each. To economise space, the locality has not been noted in case of the "Minor" and "Unspecified" sub-castes

6 The compilation of this table has been one of extreme difficulty owing to the obscurity of an immense proportion of the terms used. The names of sub-castes were carelessly written by the Enumerators, some of whom did not know how to spell the words. The copyists cared equally little about the accuracy of the spelling. The sorting was the third stage at which the names were read anyhow and put down according to the opinion of the operator. Tabulation was the first operation at which a rational rendering of the entries was undertaken. Such mistakes as were detected owing to the personal knowledge of the staff from myself down to the compilers were corrected after reference to slips, or where necessary, to the Enumeration books. Lists of all doubtful sub-caste entries were then sent to the Tahsils of Enumeration and the correct spellings obtained from the Tahsildars in triple character (Roman, Persian and Nagri). Nevertheless considering the enormous number of the sub-castes and the low paid clerks through whose hands the record has passed repeatedly, numerous meaningless entries must have escaped notice. I have corrected the names where I could be certain of an error but have not attempted more for fear of erring on the opposite side. I contemplated circulating the complete lists of sub-castes to Districts for criticism, but have had to give up the idea as it would have caused inordinate delay. I therefore prefix the Table with my apologies for such mistakes of spelling as may have crept in.

APPENDIX TO IMPERIAL TABLE XIV.
CIVIL CONDITION BY AGE AND CASTE OF CERTAIN SECTS
IN SELECTED DISTRICTS.

1. This table has been prepared according to Census Commissioner's instructions contained in his Nos 1227 and 1255, dated the 25th August 1911, and 29th August 1911, respectively, and shows for certain districts, the Civil Condition by Age, of the castes of Aryas, Brahmos and the followers of Dev Dharma (*vide* para 4, Title page of Imperial Table XIV).

2. The Districts selected are those where the followers of these sects are found in considerable strength.

3. Only 40 Sikhs have returned themselves as Aryas and 22 as Brahmos in these Districts. They have not, therefore, been included in the figures shown in this table

4. Castes returning less than 10 persons have been grouped under 'Others'
